1. I discussed with Mr. Dulles the request from SO that I attempt to secure from Senator Morse source leads that will be of assistance to CIA in helping to infiltrate China's intelligence operations against the United States. After discussing the matter with Mr. Wisner, Mr. Dulles proposed to table the SO request pending an attempt to secure the information through other sources.

2. I informed Mr. Dulles of Senator Humphrey's interest in securing a visitor's visa for [redacted] as noted in Journal entry for 6 May. Mr. Dulles stated that when he next talked with Mr. Robert Alexander of the Visa Division of the State Department, he would make some representation as to CIA's interest. I so informed Mr. Simms of Senator Humphrey's office.
